General Notes

Lay a clean sheet of plain photocopy or laser printer paper over this template and write each character on *that* sheet in the spaces provided. Use a black pen, preferably a fine tipped felt pen. Write each character as if you were writing on lined paper - you may write descending characters, like j and y below the line. Exact placement is not required, it is only important that each character has some white space around it. If you mess-up a character you can use the spare spaces on the bottom line. Put your name, email, date and country on the top sheet too. Post to: **HandFonts, PO Box 11-310, Wellington 6001, New Zealand**
